

**CSFP WAITING LIST:** I understand I am on the Waiting List. My certification and annual validation must be kept current. All new clients start on the Waiting List and remain there until a CSFP program opening becomes available. When a CSFP program opening is available the Waiting client at the top of the Wait list will be moved to the Participating List. Once moved to the Participating list the client will be notified of their status change with a phone call from the site location prior to the distribution. If you miss two distributions in a row after moved to the Participating status, your participation will be discontinued and you will be moved to the bottom of the Waiting list. *This institution is an equal opportunity provider.*
