

CSFP WAITING LIST: I understand I am on the Waiting List; my application is good for 6 months unless moved to Participating. If not moved to Participating in 6 months, I will need to complete a new application. My certification and annual validation must be kept current once moved to Participating. All new clients start on the Waiting List and remain there until a CSFP opening is available. When an opening occurs the Waiting client at the top of the Wait list will be moved to the Participating List. Once moved to the Participating list the client will be notified of their status change with a phone call from the site location prior to the distribution. After moved to participating two consecutive missed distributions will result in removal from CSFP. *This institution is an equal opportunity provider.*
